# ABOUT US

## WE ARE HERE FOR YOU

Our company imported the first fabric rolls used in the application of oil paints to Turkey in 1987 and introduced them to the Turkish paint market and practitioners. In addition to carefully selected raw materials, technical fabrics used in rolls are produced in our facility equipped with the latest technologies as knitting and weaving. By producing its semi-finished products in our factory without compromising its quality target, it continues its way as a whole with a dynamic and energetic full team understanding, adopting the principle of keeping customer satisfaction at the highest level.

## OUR VISION

To make the biggest contribution to the sector with our professional approach by coloring all surfaces in the world and in Turkey with our paint application products.

## OUR MISSION

It is always to develop new products for the continuity of customer satisfaction and the comfort of the practitioners with our quality products that lead the norms of the globalizing world.

UNIRULO offers you not only what you need in paint rollers, but also the best quality at the best prices. Thanks to our many years of experience in the sector, we provide a complete and efficient service that will never disappoint our customers.

## OUR PURPOSE

To have the biggest share in the market by producing paint application tools that show a progress in parallel with the paint market and the development of the market. To continue on our way as the best brand sought after with our quality products and meticulously provided services and as the leader of the sector. In this regard, it is to be a sought-after brand both with our brand and as the supplier of distinguished paint companies in Turkey and the world market.

Seeing you with us at this stage will be a source of pride for our company.

# UNIRULO LUXURY PAINT BRUSH

**No:4**

**No:3**

**No:2.5**

**No:2**

**No:1.5**

**No:1**

- It is made of special filaments.
- It is used in water-based silicone paints.
- It does not leave any hair during the application.
- The plastic handle provides ergonomic and easy grip.
- Its metal body is resistant to rust and corrosion.
- It is used for jobs that require shortcut and above performance.
- Thanks to its special soft bristles, it does not leave marks on surfaces.
